

Sister Mary Ann Wood, SSND - 75 Year Jubilee!

*"I tried to live the gospel
to its fullest among God's people."*

75 years of hope, love, and joy have been brought to the world through my ministries ranging from Baltimore, MD to Bolivia, South America.

I enjoyed teaching the youngsters in Fort Lee, New Jersey and underwent Spanish language training to teach "beginning students" how to read about God's stories. In Philadelphia, the City of Brotherly Love, I assessed the English-language ability of Spanish-speaking students. Living among the people in Bolivia brought much joy, training young Aymara women to be teachers, fluent in the Aymara language. My fluency in the Spanish language brought me to Baltimore, Maryland, where I served as a staff interpreter for families at Johns Hopkins Medical Center.

I tried to live the gospel to its fullest among God's people.
