

Sister Margaret (Peggy) Juskelis, SSND - 40 Year Jubilee!

I was truly blessed to meet Sisters throughout the province and in the larger congregation as well.

SSND has been a part of my life since I started first grade at St. Joseph Monastery and continuing through high school at Archbishop Keough. During those years, the example of the Sisters who taught me led to my becoming an SSND.

For the past forty years, I have been blessed to serve in a variety of locations throughout the former Baltimore Province: Cumberland, West Hollywood and Baltimore. My life has been enriched by the teachers, students and families I met through my ministry as a teacher. The communities I lived with provided the support and challenges needed to allow my skills to mature.

For six years, I had the wonderful opportunity to serve on the first Provincial Council of the newly formed Atlantic-Midwest Province. I was truly blessed to meet Sisters throughout the province and in the larger congregation as well.

Currently I serve as President of one of our co-sponsored schools, Mother Seton Academy. Here one can see how a transformative education of middle school girls and boys helps them reach the fullness of their potential. It is exciting to see how they mature during their three years at MSA. Our collaboration with five other congregations supports the mission we hold dear.
