

Sister Mary Aveline Smith, SSND - 80 Year Jubilee!

Sister Aveline Smith will also be celebrating her 100th birthday this year!

Sister Aveline had ministered in various areas of service to the community. The first was to be the light of Christ for her community - she was a primary school teacher for many years, followed by serving as the admitting person at a hospital in New Jersey, and finally as a driver for the Sisters in Wilton.

She loved all of those occupations and felt that she always "tried to consider others; that others should always come first."

When asked what was the best thing that stands out in life for her, she replied 'stability.' I always tried to accept whatever came into my life, and I tried to give myself in that situation."
