'Beyond the Board Statement: How Can Boards Join the Movement for Racial Justice (Part I)'

In this webinar session, nationally recognized governance, strategy, and equity consultants Vernetta Walker and Robin Stacia have an in-depth set conversation about how boards of directors can and should join the movement for racial justice.

Topics will include:

- What is the value of board statements to the community?
- How should boards of directors be responding right now? What questions should they be engaging?
- How can boards show up authentically if they are early in their understanding of and/or commitment to racial justice?
- What kinds of risks and backlash to joining the movement are boards worried about? Why?
- What if the staff have a more developed racial justice stance than the board?
- What is the role of the CEO in facilitating the board's racial justice work?
