

Sister Dorothy Mary Leising, SSND – 75 Year Jubilee!

*"I was very impressed
by their kindness,
joy and encouragement."*

I was born in Buffalo, New York. My parents were loving and supportive. They were delighted when I told them I wanted to enter the convent.

I did not attend an SSND school. I first met the SSNDs at St. Mary's Parish in Buffalo. I was very impressed by their kindness, joy and encouragement.

When I was finally sure of what I wanted, I made the decision to enter SSND. I spent many happy years in the places that I ministered.

I have many stories I could tell, but the one that always touched me most was the little boy who found learning so hard. I was so determined to help him. He was always so grateful and good to me. He still keeps in touch with me after all these years.

I was asked what I would like to share with others.

Well, it is this:

We are all different and we all want to be loved and respected, so I would say, "Let us do that for each other."
